server and client in compliance  
with RFC 959)*

## 👤 PROFILE

**As a Third-year student at EPITECH, I am actively seeking a 4-month internship for my third year/6 month part-time.** My educational journey has equipped me with a strong foundation in computer science and software development. Having lived in London for 13 years before moving to Ferney-Voltaire, France, and transitioning from the Public English school system to Lycée Internationale de Ferney-Voltaire, I have gained valuable life experiences and adaptability skills. I am committed to continuous self-improvement and am eager to apply my skills and learn new ones in a professional setting.
